Certified Dementia Practitioner on staff
Home Instead Senior Care

Bradley

Gayleen Bradley, Client Care Coordinator for **Home Instead Senior Care**, has recently become a Certified Dementia Practitioner, along with being the facilitator of the Alzheimer's Training Program, developed exclusively for Home Instead Senior Care by the George G. Glenner Foundation in California.

Bradley's passion is to equip Home Instead CAREGivers to provide dementia care with dignity and respect, through specialized tools and techniques. She has facilitated advanced training for over 40 Home Instead Senior Care CAREGivers since she began teaching the program in September of 2009.

Home Instead Senior Care specializes in caring for individuals with all types and stages of dementia. Whether the senior lives with a family member who needs respite care or in their own home or retirement facility, Home Instead Senior Care is the trusted choice for non-medical dementia care.

For more information on how Home Instead Senior Care can support you in caring for a loved one or to inquire about Bradley conducting in-service training for your staff or group, call 423-8119. www.HISC101.digbro.com
