

GREAT TURNOUT FOR THE DEMENTIA TRAINING

We had a great turnout for our 2nd training event for Alzheimer's Disease and Dementia Care on February 7th.

Several members of our staff and those in the community, took the path to becoming a Certified Dementia Practitioner with Tammy Pozerycki. This one day seminar allows the attendees of the training to earn 8 hours of continuing education and/or apply to the NCCDP for their Certified Dementia Practitioner certificate.

ActivMed has partnered with Tammy from Alternatives in Alzheimer's Care to host these events in our Methuen Learning Center. This was the second CDP training event, and two more are planned for May and October of this year. [Visit our Event Calendar for these and other local events.](#)

For more information about Tammy Pozerycki and her training seminars email tammy@altalz.com or 508-861-6709
