Paraklese Technologies, Ilc

<http://www.paraklesetechnologies.com>

Couldn't find Ammunition Manufacturer in the category. Manufacturer of 12 gauge training ammunition for less lethal weapons. Specifically the Training Sock AND Drag/Fin Trainer can be had for as little as \$2.00 per shot fired as opposed to the nearly \$6.00 per shot that our competitors charge. We also make the only door breaching training round in the world. Agencies have too many other things to spend their money on than having to spend \$6.00/shot to train/qualify with 12 gauge less lethal.
