

## Welcome to Comfort Keepers® Senior Care in the Burton and Port Huron, MI areas

Families used to think that nursing homes, assisted living communities and other care centers were the only solutions for aging loved ones when they began to change physically and cognitively. Now seniors and their families have choices right at home.

As one of Genesee County's certified dementia practitioners Al and Deborah Jones understand the need of caring for a loved one in the comfort of their own home. By the time their mother Dorothy Jones was 80 years old she had undergone multiple hip surgeries. Like many seniors, this started a series of events that led to her continued need for care. After working a full time job and then caring for her 24/7, exhausting their family resources, they realized they needed help from someone who loved their mother like they did. The search began for a company in Genesee County that not only allowed Dorothy to remain in the comfort of her own home but also had well trained fully bonded caregivers and a passion for seniors that only a family could have.

Disheartened and frustrated by their search they were ready to give up. Then they found and purchased the franchise Comfort Keepers. Dorothy was the first client here in Genesee County. At Comfort Keepers®, nothing is more important than helping people live full, independent and dignified lives within the comfort of their own homes. Comfort Keepers is dedicated to providing in-home care that enriches our clients' lives and helps them maintain the highest possible level of independent living. Comfort Keepers took care of our mother and we would love to help care for yours.
