Our Leadership Team

Julie Peterson, CADDCT, CDP, CDM

Administrator

Julie earned her Bachelor's of Science in Human Services and focused her studies in gerontology. She also completed her Associate's degree in Business Management. Julie graduated with honors Cum Laude from Wayland University. Julie is now a Licensed Assisted Living Administrator for Vintage Park at San Martin Memory Care Community. She has furthered her education since taking the roll of Administrator. She completed training as a Certified Dementia Practitioner, Certified Dementia Care Manager and is a Certified Alzheimer's Disease and Dementia Care Trainer. Julie leads her team with her vision and philosophy: "To make a difference everyday, every time and with every Resident - No matter where they are at in their disease, we can touch and enrich their life as an individual. It is our goal daily to engage, enrich, and impact the lives of our residents and to ensure that we give them joy, meaning and purpose. Everyday, Every time and with Every Resident"

Melissa Quaranto, LPN-GC, CADDCT, CDP

Certified Dementia Care Manager

In 2007, Melissa started her career in the assisted living setting. She quickly realized her passion for working with the elderly, and studied nursing while working as a Med Tech/Caregiver at an assisted living community. Over the years she has enjoyed caring for her residents and their families, but nothing has been more gratifying since she has taken on the role as Resident Care Director at Vintage Park at San Martin Memory Care. Melissa holds very high standards of her staff, and is on a mission to change the traditional culture of how we approach dementia care in Las Vegas. She believes in person-centered quality care, and joining the resident where they are in their journey. Her priority is the relationship with the individual, not the task. Melissa is always looking for ways to enhance the lives of her residents, and she trains her staff to use effective skills and techniques that promote positive experiences for the residents they care for everyday. She uses hands-on approach while training, and continues to provide bedside care to her beloved residents. She holds a certification in Geriatric Nursing, trained with the National Council of Certified Dementia Practitioners and acquired certification in teaching their curriculum, as well as earning a Certified Dementia Care Manager credential.
