**TESTIMONIALS FOR
GOLDENTOUCHHEALTHCARE.COM**

"As you watch your loved one suffer from dementia, you try to seek someone or something that will help ease this burden for both yourself and your loved one.

Melissa Gallagher, our Recreational Therapist, has been able to stimulate my mom in both social and cognitive ways. Activities ranging from art, crafts and increasing her motor skills have certainly improved her quality of life.

Her weekly visits have helped my mom and I highly recommend Melissa to anyone who has a family member suffering from dementia." -Patricia M.

Golden Touch Health Care

Welcome to GoldenTouchHealthCare.com. Our goal is to serve your needs.

Here's a little bit about us and our founder...

Melissa Gallagher is a Certified Therapeutic Recreation Specialist (CTRS) through the National Council for Therapeutic Recreation Certification (NCTRC). She has a Bachelor of Science Degree in Therapeutic Recreation from St. Joseph's College, and over a decade of clinical experience in the field of TR.

She is also a Certified Dementia Practitioner (CDP) and approved instructor through the National Council for Certified Dementia Practitioners (NCCDP).

After working in various settings, including long term care, and then becoming a caregiver for her father, Melissa saw the need for recreation therapy in the home and created her company Golden Touch Healthcare Inc.

Having advocated for her father's needs as an individual with a rare form of dementia, as well as for her clients', Melissa recognized the need for education and training for those who care for an individual with Alzheimer's or other dementias.

She currently teaches seminars, workshops and training sessions for both professional caregivers and families.
