Caring for a loved one with dementia poses many challenges for the individual, families and caregivers. As a certified care manager, I work with older adults and their families, providing

guidance and assistance to enhance quality of life.

I aim to offer the best care to my clients, which means staying current to attend to their needs. Over the years, we are seeing more and more cases of Dementia, including Alzheimer's.

In order to continue to provide the best care, I have become a **Certified Dementia Practitioner.**

I'm proud to have this extra credential and expertise obtained through training at the Aging Care Academy at Hebrew Health Care. The Dementia Practitioner Certification, offered by the National Council of Certified Dementia Practitioners (NCCDP), shows my commitment to provide my clients with the highest standards of care.

Having a guide who understands the disease process and strategies for working with this population can be of great relief to families. Our staff at Aging Care provides appropriate, competent and sensitive care for dementia patients who live at home, in assisted living or a nursing home. Due to our experience and knowledge base, we are able to help individuals in different stages of the disease, as well as provide helpful guidance for families dealing with this very stressful experience.

Aging Care, LLC is an experienced Care Management company specializing in the care of the older adult, providing assistance and guidance to individuals and families throughout Central Connecticut and outlying areas. Care Management is the coordination of services by an expert to enhance the quality of life for the older individual and their families. Aging Care's goal is to coordinate the right care delivered by the right person at the right time. www.agingcarellc.com
