Our Dementia Care Units

Reflections at Victoria House

Our newest Dementia Care unit serves Assisted Living residents at Victoria Austintown.

Every feature of *Reflections* — from its secure setting designed to provide a dedicated dining area...to the “Memory Stations” that help residents reconnect — has been designed from the ground up to give residents a sense of calm and the ability to fully meet their needs, and family members a welcoming atmosphere with their loved ones.

Equally importantly, Vista Care Centers has made an unprecedented commitment to an exceptional level of training for our Dementia Care staff that cannot be found in the area.

Reflections is under the direction of Certified Dementia Practitioners (CDP). The training necessary to earn this credential from the National Council of Certified Dementia Practitioners includes communication techniques, disruptive behavior intervention, and dealing with concerns such as wandering, aggressive behavior and proper medication management.

All staff members who interact with residents in any way have also received specialized training in caring for individuals with Dementia.

Mary's Place at Vista Center

Mary's Place, located within Vista Center in Lisbon, is the only unit of its kind in Franklin County.

Offering sensitive and compassionate Dementia Care in a secured environment.

features a comfortable dayroom and dining area designed to look like home. place to cater to the special needs of women with dementia — from the femi color scheme to the security system.

Experience has taught us that women are often frightened, withdrawn and n mixed-gender population. Our all-female unit allows for the type of sharing others that is unique to women. Family members can enjoy open visiting ho and entertainment, and build happy memories with their loved ones.

Bratton Court and Nora's Place at Vista Center at The Ridge

These two specialized units within Vista Center at the Ridge in Mineral Ridg compassionate Dementia Care.

Bratton Court is the only all-male dementia unit in the state of Ohio. Nora's two all-female dementia units in the state (the other being Mary's Place at V Lisbon). Both are under the direction of a certified Dementia Care Practitior to meet the unique needs of those suffering from dementia.

Providing gender-specific Dementia Care at these facilities has enabled us to the medications needed to manage behaviors, leading to a better quality of li their families.
