Cracking The Dementia Code - Karen Tyrell, CDP, CPCA

Are you feeling sandwiched between aging parents, your family, and your own career?
Are you frustrated, saddened watching a loved one as they lose mental acuity?
You are not alone. There is help available.

Karen Tyrell, Certified Dementia Practitioner and Certified Professional Consultant on Aging is making life easier for caregivers and individuals with dementia. She has past experience working in long-term care homes for over 14 years in the recreation department.

Karen was highly involved in the day to day activities of the Alzheimer Society of Leeds-Grenville located in Brockville, Ontario in the role of Board President and also as Executive Director.

After moving to B.C. in 2009, Karen made her passion her profession by creating a Dementia Consulting company called, Personalized Dementia Solutions. As a Dementia Consultant, she uses her knowledge, skills and experience to generate creative non-pharmacological solutions to help to alleviate every day challenges associated with dementia.

Karen also provides educational workshops such as, "How to Maintain a Healthy Brain" and "Cracking the Dementia Code" for caregivers who are dealing with difficult behaviours. She is currently in the process of putting her "Cracking the Dementia Code" workshop into a book format.

She also volunteers her time to various support roles in the community: Caregiver Support Group Facilitator, Volunteer Coordinator for the Investor's Group Walk for Memories and as a Co-Chair for the BSIS Burnaby Seniors Fair.

Gladys Swedak - Vancouver, British Columbia

The program was hard to listen to as it was broken up not continuously speaking.
