## Network

### Visit our network...

Improving the quality of care and life in continuing care settings is an ongoing effort that requires networking and sharing of resources and information. The sites listed on this page have been chosen based on the quality of their information and the creativity of their presentation. If you would like your site considered for inclusion on this page, contact the network administrator at [jtomaino@tomainogroup.com](mailto:jtomaino@tomainogroup.com).

[Anthonyssonq.com](#) Innovative site with resources for activities professionals with an emphasis on music as well as other materials.

[Benevon](#) is a web site for a company focused on helping not-for-profits create sustainable funding. It includes many free resources, as well as information on their model for major gifts and regional training calendar.

[Memories 101](#) is a super site that has pages for each month of the year packed with ideas for resident activities and projects.

[National Council of Certified Dementia Practitioners](#) is a site with resources and educational offerings for continuing care professionals specializing in care of residents with dementia. Certification information is also provided.

[Quality Geriatric Care](#) Information packed web site with focus on improving quality of care in geriatric settings.

[RecreationTherapy.com](#) Super site with multiple pages and lots of resources and products for recreation therapy for long term care. Sign up for their free newsletter as well.

[RecreativeResources.com](#) Info site of a NJ-based Therapeutic Recreation Education and Consultation Company specializing in Long-term care. They offer a variety of seminars for Recreation/Activity Professionals as well as individuals who work with the elderly. Site features Recreation forms (some free!), manuals, and training materials, as well as free job posting, and resources.
