es, The

Alzheimer's Disease Should

a new guideline to  
ease or another type

of dementia should stop driving. The guideline is published in the April 12, 2010, online issue of *Neurology*®, the medical journal of the American Academy of Neurology,

- **RxAssist database of patient prescription assistance programs**  
Patient assistance programs are run by pharmaceutical companies to provide free medications to people who cannot afford to buy their medicine. RxAssist offers a comprehensive database of these patient assistance programs, as well as practical tools, news, and articles so that health care professionals and patients can find the information they need. All in one place.
- **Alzheimer Disease patient's pain behaviors**  
people with dementia often experience pain that is undetected and under-treated. This does not happen because family and healthcare providers do not care. It happens because people with dementia are often not able to clearly voice that they have pain
- **Drug Interaction Checker**  
Drug interactions can result in unwanted side effects or prevent a medicine from doing its job. Find out if your medicines interact with each other.
- **Caregiver Guide, booklet, Home Safety for People with Alzheimer's Disease**
