09-16-2010: A poll of 100 emergency room doctors, conducted by *Truth On Call* for msnbc.com, found that 59 percent of doctors reported violence in the health care setting is a growing concern.

“Healthcare Professionals work in one of the highest at risk environments of uncontrolled, erratic and potentially violent behavior. Unfortunately these numbers are increasing at an alarming rate and most employers are not providing training until it’s too late.”

08-2010: AP - Violence against nurses and other medical professionals appears to be increasing around the country as the number of drug addicts, alcoholics and psychiatric patients seeking care climbs.

Have you taken the necessary steps to train your staff and prevent law suits?

Thomas J. Archambault

Train the Trainer Certification Course

COURSE PROFILE: This three-day “train-the-trainer” certification course is specifically designed and developed for healthcare professionals. It is highly recommended for staff working in hospitals, nursing homes, assisted living, CCRC, adult day care, psychiatric facilities, hospice, home care agencies, rehab centers and drug/alcohol facilities. The “Train the Trainer” course is designed to provide a comprehensive curriculum to instruct the TJA Non-Violent Self-Protection® basic certification program to facility line staff. A thoroughly researched and realistic training program it fully addresses the contemporary issues and liability conditions facing healthcare professionals when dealing with verbally and physically combative patients, family members and visitors. A highly retentive “fully backed in court” certification program, it additionally provides a comprehensive, nationally based self-protection and use of force policy for healthcare facility implementation.

“The program delivers a multi-staff approach to the effective management of potentially dangerous conditions in any healthcare setting.”

WHAT IS INCLUDED: \$1,295 all trainer and student course materials, PowerPoint® program on a flash-drive, Emergency Response Belt® with carrier case, TJA Health Care Self-Protection/ Use of Force Policy and “backed in court” three-year nationally recognized instructor certification. Recertification is provided at low-cost for an additional three years via a recertification kit. Cost-effective, in-house training available on-site for your facility. **Call for a tailor-designed proposal.**

A division of TJA Use of Force Training, Inc.

The company fully “backs in court” its training programs and certified instructors at NO COST* in the unlikely event of litigation.
